

# Ocean Science Exploration Camp

at the

**Inner Space Center**  
**August 10-14, 2015**

**A week-long, hands-on, Ocean Science Exploration Day Camp** will be offered through the *Inner Space Center (ISC)* at the **University of Rhode Island's Graduate School of Oceanography** in **Narragansett, RI**. The ISC is an innovative leader, advancing ocean science exploration, research, and education.

During this **day camp**, participants will become **physical oceanographers**. The camp will investigate the motions and physical properties of ocean waters including:

- density
- buoyancy
- salinity
- temperature
- wave dynamics
- ocean currents
- tides

Campers will go on local field trips and links to ocean technology will be made. Campers will also be surrounded by video, audio, and other oceanographic data in real time, and learn about the amazing ocean discoveries that unfold at the ISC. Campers will also engage with scientists that are involved in active missions to explore the otherwise "unknown ocean."

Cost: \$495 per/camper.
